C. L. Kincannon, Deputy Director

POPULATION DIVISION
Roger A. Herriot, Chief

Acknowledgments

Many persons participated in the diverse activities of the 1980 census. These acknowledgments generally reflect staff during the post-census data publication process. The Bureau was guided by Director, **Bruce Chapman**, and Deputy Director, **C.L. Kincannon**. Primary direction of the data publication program was performed by **William P. Butz**, Associate Director for Demographic Fields, assisted by **Peter A. Bounpane**, Assistant Director for Demographic Censuses, in conjunction with **Barbara A. Bailar**, Associate Director for Statistical Standards and Methodology, **Howard N. Hamilton**, Acting Associate Director for Information Technology, **James D. Lincoln**, then Associate Director for Administration, and **Stanley D. Moore**, Associate Director for Field Operations. The Director's staff was assisted by **Sherry L. Courtland**. Direction of the census enumeration and early processing activities was provided by **Vincent P. Barabba**, former Director; **Daniel B. Levine**, former Deputy Director; and **George E. Hall**, former Associate Director.

Responsibility for the overall planning, coordinating, processing, and publication of the 1980 census was in the Decennial Census Division under the direction of **Stanley D. Matchett**, Chief, assisted by **Rachel F. Brown** and **Roger O. Lepage**, Assistant Division Chiefs. The following Branch Chiefs were responsible for support services; **Donald R. Dalzell**, **H. Ray Dennis**, **Stephen E. Goldman**, **Dennis W. Stoudt**, and **Richard R. Warren**.

Responsibility for developing the population portion of the 1980 census questionnaire content and designing the tabulations in this report was in the Population Division, under the supervision of **Roger A. Herriot**, Chief, **Paula J. Schneider**, Staff Assistant for Census Programs, and **Gordon W. Green, Jr.**, **Nampeo D. McKenney**, and **Arthur J. Norton**, Assistant Division Chiefs. Important contributions were made by the following Branch and Staff Chiefs: **Patricia A. Berman**, **Edward W. Fernandez**, **Philip N. Fulton**, **John M. McNeil**, **Martin O'Connell**, **George F. Patterson**, **Thomas S. Scopp**, **Paul M. Siegel**, **Robert C. Speaker**, **James A. Weed**, and **Arno I. Winard**. Also contributing were **Rosalind Bruno**, **Arthur R. Cresce**, **Diana DeAre**, **Thomas Gelinne**,

Kathryn Grossman, **Robert O. Grymes**, **Kristin A. Hansen**, **Jane Ingold**, **Mark S. Littman**, **Edith McArthur**, **Thomas J. Palumbo**, **Peggy Payne**, **Gloria J. Porter**, **John A. Priebe**, **Carolyn C. Rogers**, **Rosemaria Simpson**, and **Nancy Sweet**.

Administration support was provided by the Administrative Services Division, **Robert L. Kirkland**, Chief, and **William C. Fanning**, Assistant Chief.

Computer processing was performed in the Computer Operations Division, **C. Thomas DiNenna**, Chief, **James E. Steed**, **George M. Bowden**, and **Joseph J. Sferrella**, Assistant Chiefs.

Questionnaire processing procedures were developed in the Decennial Processing Staff, **James S. Werking**, then Chief, under the direction of **Harry O'Haver**, then Assistant Chief. The clerical coding and microfilming of the sample questionnaires were performed at three decennial processing locations as follows: Data Preparation Division, **Don L. Adams**, Chief; Jeffersonville Processing Office, **Robert L. Kirkland**, then Processing Manager; New Orleans Processing Office, **Robert L. Allen**, Chief; and Laguna Niguel Processing Office, **Robert N. Scheller**, Chief.

User services were provided by the Data User Services Division under the supervision of **Michael G. Garland**, Chief, **Marshall L. Turner, Jr.**, and **Paul T. Zeisset**, Assistant Chiefs.

Data collection activities were supervised in the Field Division by **Lawrence T. Love**, Chief, under the direction of **Richard Blass**, **Charles Hancock**, and **George T. Reiner**, Assistant Chiefs, with the assistance of the directors and assistant directors of the Bureau's regional offices.

Geographic programs and plans were developed in the Geography Division under the direction of **Joseph J. Knott**, **Robert W. Marx**, and **Silla G. Tomasi**, Assistant Chiefs, and **Donald I. Hirschfeld**.

Publications editing, design, composition, and printing procurement were performed by the staff of the Publications Services Division, **Raymond J. Koski**, Chief; **Milton S. Andersen**, **Arlene C. Duckett**, and **Gerald A. Mann**, Branch Chiefs.

The Statistical Methods Division was largely responsible for weighting sample data and producing variance estimates. This work was supervised by **Charles D. Jones**, Chief; **Susan M. Miskura** and **Robert T. O'Reagan**, Assistant Chiefs. Important contributions were made by **David H. Diskin**, **Milton C. Fan**, **Thomas W. Harahush**, **Robert S. Jewett**, **J. Kim**, **Teresa A. Passalacqua**, **John H. Thompson**, and **Henry F. Woltman**.

The system design, technical specifications, assembly, and installation of the FOSDIC and Automated Camera Technology System were the responsibility of the Technical Services Division, **C. Thomas DiNenna**, Acting Chief, and **Robert J. Varson**, Branch Chief.

Many other persons participated in the various activities of the 1980 census. For a list of key personnel, refer to the *History of the 1980 Census of Population and Housing*, (PHC80-R2).

Postage stamps not acceptable; currency submitted at sender's risk. Remittances from foreign countries must be by international money order or by draft on a U.S. bank.

Table Finding Guide—Subjects by Type of Area and Table Number

The guide lists all subjects covered in the report but does not indicate all cross-classification (e.g., by sex, age, ancestry) or the historical data shown in table 61. Additional information is given in the footnotes. Table numbers identified here with boldface type (e.g., **73**) present data for racial groups and/or Spanish origin. Tables identified with an asterisked number (e.g., **56***) present data for the State by urban, rural, and rural farm residence and by inside and outside SMSA's. Data on allocation rates appear in tables C-3. For definitions of terms, see appendixes A and B.

Poverty status in 1979:	61, 72*, 82, 92, 98, 104, 114	82, 92	125, 131, 137, 143, 149, 155	161, 165	168, 170	181, 187	189, 191	193

¹Data for towns and townships are shown in reports for Connecticut, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin. Data for towns/townships comparable to that for places of the same size category are shown following the tables for places. Their table numbers correspond to those for places and have an "a" suffix; e.g., in table 161 data are shown for places of 10,000 to 50,000; in the 11 states data for towns and townships of 10,000 to 50,000 are shown in table 161a. ²In Alaska State report, areas are American Indian reservations and Alaska Native Villages.

CONTENTS OF THE REPORT	V
SYMBOLS AND GEOGRAPHIC ABBREVIATIONS	VI
SUPPRESSION OF DATA FOR CONFIDENTIALITY	VI

GENERAL

This report is part of the *General Social and Economic Characteristics* series and presents sample data from the 1980 Census of Population on social and economic characteristics of the residents of the State, its counties or comparable areas, places of 2,500 or more inhabitants, standard consolidated statistical areas (SCSA's), standard metropolitan statistical areas (SMSA's), urbanized areas, American Indian reservations and certain other geographic areas of the State (e.g., the rural portion of counties). The abbreviated identification for this report is PC80-1-C (i.e., Population Census, 1980-Volume 1-Chapter C) followed by a number representing the State. A large portion of the information compiled from the 1980 Census of Population will appear in Volume 1, *Characteristics of the Population*, of which this report is part. Legal provision for this census, which was conducted as of April 1, 1980, was made in the Act of Congress of August 31, 1954 (amended August 1957, December 1975, and October 1976), which codified Title 13, United States Code.

The population figures for the various geographic entities shown here may differ from those shown in the *Advance Reports*, PHC80-V, and in the Public Law 94-171 redistricting data products. The differences reflect correction of errors found after the PHC80-V reports and P.L. 94-171 materials were prepared. The changes may affect any geographic area

shown in this report. Differences may also result from the weighting technique used to inflate the sample figures shown in this report to 100-percent population control totals. For further discussion of the estimation procedure, see appendix D.

The content and procedures of the 1980 census were determined after evaluation of the results of the 1970 census, consultation with a wide variety of users of census data, and extensive field testing. A number of changes were introduced in 1980 to improve the usefulness of the census results. The changes do not, however, affect to an appreciable extent the comparability between the 1980 census data and the 1970 census data for most characteristics. Further information on comparability for specific subjects appears in Appendix B, "Definitions and Explanations of Subject Characteristics."

More detailed information on the technical and procedural matters covered in the text of this report can be obtained by writing to the Director, Bureau of the Census, Washington, D.C. 20233. Such information will also appear in other publications of the 1980 census.

CONTENTS OF THE REPORT

This report contains text (this introduction and six appendixes), a table of contents, 138 detailed tables (61 additional detailed tables in reports showing data on towns and townships) and a map. A map of the State appears after the table of contents and shows county names and boundaries, the names and boundaries of standard consolidated statistical areas and standard metropolitan statistical areas, the names and locations of all places with a population of 25,000 or more, and SMSA central cities with fewer than 25,000 inhabitants.

Each detailed table is identified by a

table number and title. The "stubhead" at the left under the title defines the types of geographic areas for which data are shown in the particular table and is considered part of the table title. The first table in this report is table 56; tables 1 through 13 appear in the *Number of Inhabitants*, PC80-1-A report for this State and tables 14 through 55 appear in the PC80-1-B report, *General Population Characteristics*. Data are presented in this report on a broad spectrum of social and economic information collected in the 1980 Census of Population, including age, race, marital status, household relationship, ancestry, education, labor force, occupation, industry, and income and poverty. A table finding guide shows the tables in which the various types of statistics appear.

In general, the amount of detail presented in this report is greater for areas with more population than for those with fewer inhabitants. The greatest amount of detail is shown for the State and its urban and rural parts and for SCSA's, SMSA's, urbanized areas, places with a population of 10,000 or more, and counties. Less detail is shown for places of 2,500 to 10,000, the rural and rural farm portion of counties, American Indian reservations, and in Alaska for Alaska Native villages.

Appendix A describes the various area classifications (e.g., urban and rural residence, census designated places, and urbanized areas). Appendix B provides definitions and explanations for the subjects covered in this report. Appendix C explains the residence rules used in counting the population and describes the data collection and processing procedures. Appendix D presents information on the sources of error in the data, editing procedures, and a description of allocation and substitution tables C-1 to C-3. Appendix E contains facsimiles of

the respondent instructions and 1980 census questionnaire pages. Appendix F summarizes the data dissemination program of the 1980 census.

SYMBOLS AND GEOGRAPHIC ABBREVIATIONS

The following symbols and geographic abbreviations are used in the tables:

- A dash "--" represents zero or a percent which rounds to less than 0.1.
- Three dots "... " mean not applicable, or that the data are being withheld to avoid disclosure of information for individuals. (For further information on disclosure, see the section below on "Suppression of Data for Confidentiality.")
- (NA) means not available.
- CDP is census designated place.
- SCSA is standard consolidated statistical area.
- SMSA is standard metropolitan statistical area.

SUPPRESSION OF DATA FOR CONFIDENTIALITY

To maintain the confidentiality promised respondents and required by law, the Bureau of the Census takes precautions that its published data do not disclose information about specific individuals and housing units. To accomplish this the Census Bureau suppresses data for characteristics which are based on a small number of persons and/or housing units in the geographic area. Under certain conditions, both primary and complementary suppression, as defined below, may take place.

The general rules of primary suppression of sample data are as follows: estimates of total population by race and Spanish origin are never suppressed; other characteristics for persons are shown only if there are 30 or more persons in the geographic area; estimates of total housing units, vacant housing units, year-round units and occupied housing units are never suppressed; characteristics of year-round housing units which are not classified by occupancy status are shown only

when there are 10 or more year-round housing units in the geographic area; characteristics of families, households, or occupied housing units are shown only if there are at least 10 occupied housing units within the geographic area; and distributions of data for owners or renters are shown only where the number of owners is at least 10 and the number of renters is also at least 10. These primary suppression criteria are applied independently of one another. The comparable figures for complete count (100-percent) data are 15 or more persons and 5 or more housing units of the specified type.

Population and occupied housing unit characteristics cross-classified by race or Spanish origin (of the householder in the case of occupied housing units) are subject to an additional level of examination. This level requires the 30 person or 10 housing unit criterion be applied individually to each race or Spanish origin category.

Finally, complementary suppression is applied to prevent the derivation of primary suppressed data by subtraction.

CORRECTION NOTE

Corrections to the 1980 census counts of the total population have been made to some of the areas shown in this report. These corrections can be found in the correction note in PC80-1-A1, Number of Inhabitants, United States Summary, or PC80-1-B, General Population Characteristics, individual State reports and United States Summary. Any additional corrections made after these reports were printed are available by writing to Data User Services Division, Customer Services (Corrections), Bureau of the Census, Washington, D.C. 20233.

Shown below are corrections to the population characteristics shown in the table(s) of this report.

OCCUPATION AND INDUSTRY

The 1970 data on occupation and industry have been redistributed according to the 1980 classification system; these redistributed data may not sum to the 1970 total "Employed persons 16 years and over" because a few employed cases allocated to "unemployed, last job armed forces" in 1970 have been excluded from the adjusted data.

Tables in this report showing data on "PLACE OF WORK AND TRAVEL TIME TO WORK" for places (and for towns/townships in 11 states) may show dashes (-) indicating that there are no workers living in the place. This occurred because only places of 2,500 or more population (1,000 or more in Alaska and Hawaii), based on precensus population estimates were recognized for place-of-work coding. Therefore, the place-of-work data lines for places which were not recognized should have been shown as "..." (not applicable) rather than a "-" which represents zero.

Table 56. Summary of Social Characteristics: 1980

[Data are estimates based on a sample; see Introduction. For meaning of symbols, see Introduction. For definitions of terms, see appendixes A and B]
